### JOB DESCRIPTION

For our R&D department in Ankara we are looking for a Project Manager with the following tasks and responsibilities:

- Are you looking for an interesting and challenging job in an international company?
- Are you ready for a career development opportunity that will give you motivational contact with highly talented and inspirational management and engineering specialists?
- Do you have excellent project management skills?
- Can you demonstrate outstanding communication skills as well as experience with project management methodologies?

This key role, in our R&D business unit in Ankara Bilkent Cyberpark, will see you taking responsibility for leading engineering projects from a true project management perspective – creating and managing project plans, managing day-to-day project implementations and preparing executive reports highlighting critical project deviations. From inception to delivery, you will demonstrate strong project leadership, persistence, the ability to challenge when needed and a professional approach to delivering projects on time, on budget and to a consistently very high standard.

Sound exciting and a challenge that you're ready for? Please email your CV together with your motivation letter (both in English) to [info@dataraphic.com](mailto:info@dataraphic.com)
